

REMARKS/ARGUMENTS

In the Final Office Action of January 6, 2010, the Examiner objected to claims 21, 32, 35, and 38, but indicated allowable subject matter in claims 21, 23-32, 34-35, 37-38 and 40. Applicants acknowledge and appreciate the finding. Claims 21, 32, 35, and 38 have been amended to overcome the objection. Accordingly, claims 21, 23-32, 34-35, 37-38 and 40 remain pending in the present application and are believed to be in condition for allowance. Reconsideration is respectfully requested in view of the amendments to the specification and claims and the following remarks.

Allowable Subject Matter

Applicants contend the objection has been addressed. Applicants have amended claims 21, 32, 35, and 38 to recite “into the at least one message” instead of “in the at least one message.” As claims 23-31, 34, 37, and 40 depend from allowable base claims 21, 32, 35 and 38, respectively, Applicants believe these claims are also in condition for allowance.

Amendments to the Specification

The specification was objected to because it explicitly did not contain the claimed limitation “computer readable medium” in the body of the disclosure. Thus, it was allegedly not clear what the computer readable medium of claim 35 represented. In response, the specification has been amended to include the definition of the phrase “computer readable medium” within the body of the specification at page 31. No new matter is added because the phrase was part of the original claim 39 which is part of the specification.

CONCLUSION

Accordingly, Applicants respectfully request reconsideration and allowance of claims 21, 23-32, 34-35, 37-38 and 40 as they are newly amended and presented. Applicants' attorney believes this application is in condition for allowance. Should any unresolved issues remain, Examiner is invited to call Applicants' attorney at the telephone number indicated below.
